ENVIRONMENTALLY RESPONSIBLE

Earth Sense®

The Earth Sense® Program has been created to provide top performance, value driven formulations that are environmentally responsible. This program addresses the needs of facility managers for labor-saving cleaning power and performance.

Cleaning for health with chemical products that minimize environmental impact has become desirable at school facilities, healthcare, office buildings and retail establishments. But, cleaning performance cannot be compromised. These new formulations offer superior cleaning and are approved by the U.S. Environmental Protection Agency's (EPA) Design for the Environment (DfE) program.

Performance and value... you get it all with Earth Sense® Cleaning Products!

Earth Sense® RTU Glass & Hard Surface Cleaner

An exceptional glass & window cleaner that cleans without streaks and smears. Can be used on any hard surface, as well as on chrome, stainless steel, mirrors, and porcelain. Convenient, Ready-To-Use formula saves labor time. Performance compares to traditional cleaners with minimal health and environmental impact.

Product #4045

Packaged: 12 Quart Case

Product #4045

Packaged: 4 Gallon Case

Earth Sense® Neutral Floor Cleaner

A superior daily cleaner for finished VCT, vinyl tile, linoleum and terrazzo floors and for other related cleaning tasks. pH neutral, film-free formulation is safe for all floor finishes. Performance compares to traditional cleaners with minimal health and environmental impact.

Product #4048

Packaged: 4 Gallon Case

Earth Sense® HD Washroom Cleaner

Synergistic, mild organic acid blend and naturally derived surfactant system removes hard water stains from restroom fixtures while promoting a positive environmental profile. Performance compares to traditional cleaners with minimal health and environmental impact.

Product #4047

Packaged: 4 Gallon Case

Earth Sense® Heavy Duty Degreaser Cleaner

A heavy duty degreaser cleaner that removes tough grease from equipment, floors, walls, desks and other hard surfaces. Emulsifies grease and grime with lightning speed. Performance compares to traditional cleaners with minimal health and environmental impact.

Product #4046

Packaged: 4 Gallon Case

Earth Sense® Heavy Duty RTU Degreaser Cleaner

A heavy duty degreaser cleaner in a convenient, ready-to-use form. Removes tough grease from equipment, floors, walls, desks and other hard surfaces. Emulsifies grease and grime with lightning speed. Performance compares to traditional cleaners with minimal health and environmental impact.

Product #4049

Packaged: 12 Quart Case

Training...

Proper training is a fundamental part of a "green" maintenance program. While "green" cleaning is not significantly different than conventional cleaning methods, subtle changes in procedures, dilutions, handling of products must be clearly communicated to everyone involved to maximize benefits. Training should also focus on the additional benefits that "green" cleaning contributes to the entire organization, to the public and to the environment.

NCL makes your training tasks simpler, easier and more effective. NCL Earth Sense® Training materials include a wide range of tools from CD-ROM based PowerPoint Training Presentations for large groups, fully illustrated point-of-use bilingual wall charts explaining the proper use of Earth Sense® products, and color-coded bilingual primary / secondary labeling. Everything you need to implement green cleaning procedures easier, simpler, and more effectively.

Research...

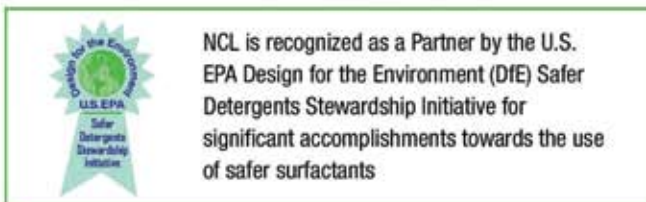

At NCL the commitment is to long term research and development in green cleaning products. Our focus is to improve product performance, product eco-responsibility and reduce product costs. The Earth Sense® Program for Cleaning and Maintenance Products has continually evolved to meet the standards for both top performance and sustainability.

These products are recognized by EPA'S Design for the Environment (DfE) program which seeks to promote the use of products with improved environmental and human health characteristics.

This seal is your assurance that designated NCL Earth Sense® products are formulated to promote human health and worker safety, and protect our environment.

NCL is recognized as a Partner by the U.S. EPA Design for the Environment (DfE) Safer Detergents Stewardship Initiative for significant accomplishments towards the use of safer surfactants
