

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

Section 1 - Identification			
Product Identifier	Earth Sense [®] TP #18 Multi-Surface Cleaner Super Concentrate with H2O2 RTU (1-32)		
Other means of identification	4018 (1-32)		
Recommended use	Detergent.		
Recommended restrictions	For commercial and industrial use only.		
Manufacturer / Importer / Supp	lier / Distributor Information		
Company Name	National Chemical Laboratories of PA, Inc.		
Address	401 N. 10th Street - Philadelphia, PA 19123		
Telephone	1 (215) 922-1200		
Supplier Email	info@nclonline.com		
Contact	CHEM-TEL		
Emergency Phone	1 (800) 255-3924		

Section 2 - Hazard(s) Identification

	Classification	Category	
Physical Hazards	Not Classified		
Health Hazards	Not Classified		
OSHA defined hazards	Not Classified.		
Label Elements			
Hazard Symbol	None.		
Signal Word	None		
Hazard Statement	The mixture does not meet the criteria for classification.		
Precautionary statement			
Prevention	Observe good industrial hygiene practices.		
Response	Wash hands after handling.		
Storage	Store away from incompatible materials.		
Disposal	Dispose of waste and residues in accordance with local authority requirements.		
Hazard(s) not otherwise classified (HNOC)	None known.		

Section 3 - Composition/Information on ingredients

Mixture

Composition Comments The components are not hazardous or are below required disclosure limits.

Section 4 - First-aid Measures

Inhalation	Move to fresh air. Get medical attention if irritation persists.		
Skin contact	Wash off with soap and water. Get medical attention if irritation persists.		
Eye contact	Rinse with water. Get medical attention if irritation persists.		
Ingestion	Rinse mouth. Get medical attention if irritation persists.		
Most Important symptoms or eff	ects, acute and delayed		
	Direct contact with eyes may cause temporary irritation.		
Indication of immediate medical	attention and special treatment needed		
	Treat symptomatically.		
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.		
	Section 5 - Fire-fighting measures		
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.		

	SAFEIY DATA SHEET			
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.			
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk. Use water spray to keep fire-exposed containers cool.			
General fire hazards	No unusual fire or explosion hazards noted.			
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.			
	Section 6 - Accidental release measures			
Personal precautions, protective equipment and emergency procedures.	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.			
Methods and materials for	This product is miscible in water.			
containment and cleaning up	SMALL SPILLAGE: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual			
	contamination.			
	LARGE SPILLS: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.			
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.			
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.			
	Section 7 - Handling and storage			
Precautions for safe handling	Observe good industrial hygiene practices.			
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).			
	Section 8 - Exposure control/personal protection			
Occupational exposure limits	No exposure limits noted for ingredient(s).			
Biological limit values	No biological exposure limits noted for the ingredient(s).			
Appropriate engineering	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to			
controls	conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne			
	levels to an acceptable level.			
	such as personal protective equipment			
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.			
Skin protection Hand protection	Impervious gloves are recommended for prolonged use.			
Other				
	If use of product risk exposure to contact, wear suitable protective clothing.			
	In case of insufficient ventilation, wear suitable respiratory equipment			
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.			
Respiratory protection Thermal hazards	Wear appropriate thermal protective clothing, when necessary.			
Respiratory protection				
Respiratory protection Thermal hazards General hygiene	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,			
Respiratory protection Thermal hazards General hygiene considerations	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.			
Respiratory protection Thermal hazards General hygiene considerations	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties			
Respiratory protection Thermal hazards General hygiene considerations	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear liquid.			
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear liquid. Liquid.			
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear liquid. Liquid.			
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear liquid. Liquid. Liquid. Colorless.			
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Relative density	1.03 ± 0.01
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	Complete
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	<10 cSt
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	No hazardous decomposition products are known.

Section 11 - Toxicological information

	Section 11 - Toxicological mormation			
Information on likely routes of e	xposure			
Ingestion	Expected to be a low ingestion hazard.			
Inhalation	No adverse effects due to inhalation are expected.			
Skin contact	No adverse effects due to skin contact are expected.			
Eye contact	Direct contact with eyes may cause temporary irritation.			
Symptoms related to the	Direct contact with eyes may cause temporary irritation.			
physical, chemical and				
toxicological characteristics				
Information on toxicological effe	ects.			
Acute toxicity	Not expected to be acutely toxic.			
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.			
Serious eye damage/ eye	Direct contact with eyes may cause temporary irritation.			
irritation				
Respiratory sensitization	This product is not expected to cause respiratory sensitization.			
Skin sensitization	This product is not expected to cause skin sensitization.			
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.			
CarcinogenicityThis product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.				
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects			
Specific target organ toxicity -	This product is not expected to cause reproductive or developmental effects. Not classified.			
single exposure	Not blassmed.			
Specific target organ toxicity -	Not classified.			
repeated exposure				
Aspiration hazard	Not classified.			
	Section 12 - Ecological Information			
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or			
ecoloxicity	frequent spills can have a harmful or damaging effect on the environment.			
Persistence and degradability	No data is available on the degradability of this product.			
Bioaccumulative potential	No data available.			
Mobility in soil	No data available.			
Mobility in general	No data available.			
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.			
	Section 13 - Disposal considerations			
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.			
Local disposal regulations	Dispose of in accordance with local regulations.			
	Earth Concoll TD #19 Multi Surface Cleaner Super Concentrate with H202 PTU (1.22) 4019 (1.22) Dage 2 of E			

Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.
Waste from residues / unused products	Dispose in accordance with all applicable regulations.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Section 14 - Transport information

General Information

This product is customer diluted for on site use only. No transportation information is anticipated or provided. The regulatory transport classification of the product without consideration to dilution strength, packaging, quantity, or modal restrictions and exceptions can not be anticipated. It is the user's responsibility to determine the appropriate packaging and modal requirements and/or limitations for the product quantity being shipped.
