

# NATIONAL CHEMICAL LABORATORIES, INC.

#### SAFETY DATA SHEET

	Section 1 - Identification							
Product Identifier	EXPOSE Non-Ammo	niated Wax & Floor Finish Stripper						
Other means of identificatio	<b>n</b> 1050							
Recommended use	Floor stripper.							
Recommended restrictions For commercial and industrial use only.								
Manufacturer / Importer / S	Manufacturer / Importer / Supplier / Distributor Information							
Company Name	National Chemical Laboratories of PA, Inc.							
Address								
Telephone								
Supplier Email	info@nclonline.com							
Contact	CHEM-TEL							
Emergency Phone	1 (800) 255-3924							
	Section 2 - H	azard(s) Identification						
SDS Hazards		product. Refer to diluted SDS for Ready-To-Use Hazards	and Warnings.					
<b>a</b>	Classification	Category						
Physical Hazards	Not Classified							
Health Hazards	Serious eye damage/eye irritation	1						
	Skin corrosion/irritation	1						
OSHA defined hazards Label Elements	Not Classified.							
Hazard Symbol								
Signal Word	Danger							
Hazard Statement	Causes severe skin burns and eye damage.							
Precautionary statement								
Prevention	Do not breathe mist or vapor. Wash hands protection/face protection.	thoroughly after handling. Wear protective gloves/protective	ctive clothing/eye					
Response	skin with water/shower. Wash contaminate comfortable for breathing. If in eyes: Rinse	vomiting. If on skin (or hair): Take off immediately all com ed clothing before reuse. If inhaled: Remove person to fre cautiously with water for several minutes. Remove contac all a poison center/doctor. Specific treatment (see this la	sh air and keep ct lenses, if present and					
Storage	Store locked up.							
Disposal	Dispose of contents/container in accordanc	e with local/regional/national/international regulations.						
Hazard(s) not otherwise classified (HNOC)	None known.							
	Section 3 - Composit	ion/Information on ingredients						
Mixture								
Hazardous Components	Ingredient Name	CAS #	%					
	Sodium Silicate	1344-09-8	1 - 5					
	Sodium Hydroxide	1310-73-2	1 - 5					
	Section 4	- First-aid Measures						

Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms persist.
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

#### Most Important symptoms or effects, acute and delayed

Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

#### Indication of immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.

**General Information** 

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

	Section 5 - Fire-fighting measures
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.
General fire hazards	No unusual fire or explosion hazards noted.
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency procedures.	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	SMALL SPILLS Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. LARGE SPILLS: Stop the flow of material, if this is without risk. Use water spray to reduce vapors or divert vapor cloud drift. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
	Section 7 - Handling and storage
Precautions for safe handling	Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Use care in handling/storage.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS

#### Section 8 - Exposure control/personal protection

Occupational exposure limits				
US. OSHA Table Z-1 Limits	for Air Contaminants (29 CFR 1910.1	.000)		
Components			Value	Form
Sodium Hydroxide (CAS 1310-73-2)		TWA	2 mg/m³	
US. ACGIH Threshold Limi	US. ACGIH Threshold Limit Values			
Component	Component		Value	Form
Sodium Hydroxide (CAS	Sodium Hydroxide (CAS 1310-73-2)		2 mg/m <sup>3</sup>	
US. NIOSH: Pocket Guide t				
Components		Туре	Value	
Sodium Hydroxide (CAS 1310-73-2)		Ceiling	2 mg/m <sup>3</sup>	
Biological limit values	No biological exposure limits no	ted for the ingre	dient(s).	
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.			
Individual protection measure	s, such as personal protective equipr	ment		
Eye/face protection	If use of product risks exposure	to contact, wear	safety glasses with s	side shields.
Skin protection				

	Section 9 - Physical and chemical properties
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required.
Other	If use of product risk exposure to contact, wear suitable protective clothing.
Hand protection	Impervious gloves are recommended for prolonged use.

Appearance	Thin clear liquid.
Physical state	Liquid.
Form	Thin clear liquid.
Color	Colorless.
Odor	Odorless.
Odor threshold	Not available.
pH	13.5
Melting point/freezing point	Not available.
Initial boinging point and	212 °F (100 °C)
boiling range	
Flash point	> 212.0 °F (> 100.0 °C)
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Similar to water.
Vapor density	Similar to water.
Relative density	$1.07 \pm 0.01$
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	Not available.
Partition Coefficient n-	Not available
octanol/water	
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cP
Viscosity Temperature	75 °F (23.9 °C)

## Section 10 - Stability and reactivity

Reactivity	Reacts violently with strong acids. This product may react with oxidizing agents.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Do not mix with other chemicals. Contact with incompatible materials.
Incompatible materials	Acids. Oxidizing agents.
Hazardous Decomposition	No hazardous decomposition products are known.
Products	

#### Section 11 - Toxicological information

Information on likely routes of	exposure
Ingestion	Causes digestive tract burns.
Inhalation	May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact	Causes severe skin burns.
Eye contact	Causes serious eye damage.
Symptoms related to the physical, chemical and toxicological characteristics	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Information on toxicological ef	fects.
Acute toxicity	Not expected to be acutely toxic.
