

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Identification
Product Identifier	IMAGE RTU (1-16, 1-128) Deodorizing Neutral Cleaner
Other means of identification	0927 (1-16, 1-128)
Recommended use	Detergent.
Recommended restrictions	For Commercial and Industrial Use Only. User prepared Ready-To-Use solution. 1:16 to 1:128 in water.
Manufacturer / Importer / Supp	lier / Distributor Information
Company Name	National Chemical Laboratories of PA, Inc.
Address	401 N. 10th Street - Philadelphia, PA 19123
Telephone	1 (215) 922-1200
Supplier Email	info@nclonline.com
Contact	CHEM-TEL
Emergency Phone	1 (800) 255-3924

Section 2 - Hazard(s) Identification

	Classification	Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None.	
Signal Word	None	
Hazard Statement	The mixture does not meet the criteria for classification.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices. Avoid contact with eyes.	
Response	Wash hands after handling.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of waste and residues in accordance with local authority req	uirements.
Hazard(s) not otherwise classified (HNOC)	None known.	

Section 3 - Composition/Information on ingredients

Mixture

Composition Comments Components not listed are either non-hazardous or are below reportable limits.

Section 4 - First-aid Measures

Inhalation	Move to fresh air. Get medical attention if irritation develops and persists.								
Skin contact	Wash off with water. Get medical attention if irritation develops and persists.								
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.								
Ingestion	Rinse mouth. Get medical attention if irritation develops and persists.								
Most Important symptoms or eff	ects, acute and delayed								
	Direct contact with eyes may cause temporary irritation.								
Indication of immediate medical	attention and special treatment needed								
Treat symptomatically.									
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.								
	Section 5 - Fire-fighting measures								
Suitable extinguishing media	RTU product will not suport combustion. Water fog. Foam. Carbon dioxide (CO2).								
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.								
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.								

SAFETY DATA SHEET

Special protective equipment	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.						
and precautions for firefighters Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.						
General fire hazards	No unusual fire or explosion hazards noted.						
Specific Methods	No unusual fire or explosion nazards noted. Use standard firefighting procedures and consider the hazards of other involved materials.						
	Section 6 - Accidental release measures						
Personal precautions, protective							
equipment and emergency	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.						
procedures.							
Methods and materials for containment and cleaning up	Small Spills: Absorb spillage with suitable absorbent material. Large Spills: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal						
containment and cleaning up	flush contaminated area thoroughly with water.						
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.						
	Section 7 - Handling and storage						
Precautions for safe handling	Observe good industrial hygiene practices. Avoid contact with eyes.						
Conditions for safe storage,	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).						
including any incompatibilities							
	Section 8 - Exposure control/personal protection						
Occurational our course limits							
Occupational exposure limits Biological limit values	No exposure limits noted for ingredient(s). No biological exposure limits noted for the ingredient(s).						
-							
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain						
controls	airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne						
	levels to an acceptable level.						
	uch as personal protective equipment						
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.						
Skin protection							
Hand protection	npervious gloves are recommended for prolonged use.						
A .1	use of product risk exposure to contact, wear suitable protective clothing.						
Other							
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.						
Respiratory protection Thermal hazards	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary.						
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.						
Respiratory protection Thermal hazards General hygiene	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.						
Respiratory protection Thermal hazards General hygiene	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,						
Respiratory protection Thermal hazards General hygiene considerations	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.						
Respiratory protection Thermal hazards General hygiene considerations Appearance	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties						
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties						
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties						
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties						
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Liquid. Clear, thin liquid. Pale Yellow-Green. Floral (Puri™).						
Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. SAFETY DATA SHEET

Relative density temperature Solubilities (water) Partition Coefficient n- octanol/water	75 °F (23.9 °C) Completely soluable. Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cSt
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	No hazardous decomposition products are known.

Section 11 - Toxicological information

Information on likely routes of e	xposure
Ingestion	Expected to be a low ingestion hazard.
Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.
Information on toxicological effe	ects.
Acute toxicity	Not expected to be hazardous.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/ eye irritation	Direct contact with eyes may cause temporary irritation.
Respiratory sensitization	This product is not expected to cause respiratory sensitization.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
	Section 12 - Ecological Information
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine
	disruption, global warming potential) are expected from this component.
	Section 13 - Disposal considerations
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.

SAFETY DATA SHEET

Waste from residues / unused	Dispose in accordance with all applicable regulations.
products	
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Section 14 - Transport information

```
General Information
```

This product is customer diluted for on site use only. No transportation information is anticipated or provided. The regulatory transport classification of the product without consideration to dilution strength, packaging, quantity, or modal restrictions and exceptions can not be anticipated. It is the user's responsibility to determine the appropriate packaging and modal requirements and/or limitations for the product quantity being shipped.

Section 15 - Regulatory Information

	Seci	tion 15 - Reg	ulatory Information			
US federal regulations	This product is not knc 1910.1200.	own to be a "Hazard	ous Chemical" as defined by the OSHA Hazard Co	mmunication Standard, 29 CFR		
	All components are on	the U.S. EPA TSCA	nventory List.
