

# DUAL-BLEND®

## Wall Mounted Dispenser

### DESCRIPTION

NCL DUAL-BLEND® Chemical Management System is easy to use and provides a consistent, accurate dilution each and every time. Dilution Control. . . Your Way.

### PRODUCT FEATURES / BENEFITS

- Completely closed dispensing system. Reduces contact with concentrated chemical.
- Minimum setup required. Quick and easy to use. Unit comes completely assembled. Ready to mount on the wall. (Chemicals not included)
- Durability - Sturdy, durable plastic construction that holds up for long term use.
- Versatile - Dispenses to both bottles and buckets from all four products.
- Bottle activated fill assembly for one-handed quart bottle filling.
- Accurate dilutions control costs. Save money and products perform better.
- Lockable cabinet. Comes with 2 keys. Secure 3 point lock, top, middle and bottom, keeps product concentrates safe.
- ASSE Approved back flow device prevents contamination of water source.
- Simple installation. Minimum setup required. No tips to insert, no tubes to install. Comes ready to use, simply mount on wall, connect to water source, insert products and begin diluting products.

### DIRECTIONS FOR MOUNTING

1. Identify desired location of dispenser. Remove cardboard mounting template from packaging, place against wall and mark hole locations using the template as a guide. [For accuracy, use level with template to ensure the dispenser is level on the wall]
2. Install all four supplied anchors into marked hole locations from step 1. Using supplied screws, install top two screws and hang dispenser from them. Install bottom two screws through dispenser holes into the anchors.
3. Tighten screws against dispenser to assure a secure fit.
4. Install Drip Tray by sliding into place against tab in back of drip tray holder. [Optional: Drill 3/16" hole into drip tray barb and attach 1/4" ID hose (not supplied) for draining chemical from drip tray.
5. Position chemical container into each compartment in desired position and connect DUAL-LINK cap.
6. Close and lock the cabinet doors
7. Connect the supplied water hose to your water source and activate the dispenser by selecting a position on the dial and using either the bucket or bottle fill activation point.

### GENERAL SPECIFICATIONS

- Unit Weight, unboxed 17 lbs., boxed 19 lbs.
- Doors / Center Panel: Maroon Color
- Body of Unit: Medium Gray Color
- Drip Tray: Black
- Bottle Rejecter: Medium Gray Color
- Unit Includes: Action Gap educators, Water Supply Hose, all chemical supply tubing, spray bottle solution tube, Mop/ Bucket solution hose.

### DIRECTIONS FOR OPERATION

#### Chemical Selector Dial

1. Turn the chemical selector dial to the desired chemical position, indicated by the directional arrow
2. Dispense chemical by either activating the bottle fill lever or bucket fill button
3. For rinse water, point the dial straight down at the water symbol- This is not potable water, do not drink

#### Dispenser Activation Points – Bottle Fill

1. Slide the bottle tube inside the spray bottle and raise the bottle to engage the u-shaped lever of the bottle fill assembly
2. To stop filling, lower the bottle and the lever will disengage
3. Be careful when removing the spray bottle so as to not splash residual chemical

#### Dispenser Activation Points – Push Button Bucket Fill

1. To start the flow of diluted chemical, press button on unit above selector dial
2. For continuous flow, twist button clockwise
3. To disengage, release button or twist button counterclockwise
