

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

Section 1 - Identification			
Product Identifier	GYMPREP Intensive Wood Prep Cleaner		
Other means of identification	1632		
Recommended use	General purpose cleaner.		
Recommended restrictions	For commercial and industrial use only.		
Manufacturer / Importer / Su	pplier / Distributor Information		
Company Name	National Chemical Laboratories of PA, Inc.		
Address	401 N. 10th Street - Philadelphia, PA 19123		
Telephone	1 (215) 922-1200		
Supplier Email	info@nclonline.com		
Contact	CHEM-TEL		
Emergency Phone	1 (800) 255-3924		

Section 2 - Hazard(s) Identification

SDS Hazards and Warnings are based on the undiluted product. Refer to diluted SDS for Ready-To-Use Hazards and Warnings.

	Classification	Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None.	
Signal Word	None	
Hazard Statement	The mixture does not meet the criteria for classification.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices.	
Response	Wash hands after handling.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of waste and residues in accordance with local authority rec	quirements.
Hazard(s) not otherwise classified (HNOC)	Not classified.	

Section 3 - Composition/Information on ingredients

Mixture

The components are not hazardous or are below required disclosure limits.

Section 4 - First-aid Measures

	Section 4 - Thist-and measures
Inhalation	Move to fresh air. Get medical attention if irritation persists.
Skin contact	Remove contaminated clothing and shoes. Wash skin with soap and water. Get medical attention if irritation persists.
Eye contact	Flush eyes thoroughly with water for at least 15 minutes. Get medical attention if irritation persists.
Ingestion	Rinse mouth thoroughly with water. Call a physician or poison control center immediately.
Most Important symptoms or effe	ects, acute and delayed
	Mild eye irritation.
Indication of immediate medical a	attention and special treatment needed
	Treat symptomatically.
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
	Section 5 - Fire-fighting measures
Suitable extinguishing media	This material will not burn. Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	None known.
Specific hazards arising from the chemical	None known.

Created avetestive equipment	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk. Use water spray to keep fire-exposed containers cool.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.
procedures.	
Methods and materials for containment and cleaning up	SMALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
	Section 7 - Handling and storage
Precautions for safe handling	Avoid contact with eyes. Use Personal Protective Equipment recommended in section 8 of the SDS.
Conditions for safe storage, including any incompatibilities	Store away from incompatible materials. Keep container closed.
	Section 8 - Exposure control/personal protection
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Exposure guidelines	Use personal protective equipment as required. Keep working clothes separately.
Appropriate engineering controls	Provide adequate ventilation and minimize the risk of inhalation of vapors and mists. Provide easy access to water supply and eye wash facilities.
	ich as personal protective equipment
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.
Skin protection	
· .	Impervious gloves are recommended for prolonged use.
Hand protection Other	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing.
Hand protection Other	If use of product risk exposure to contact, wear suitable protective clothing.
Hand protection	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection.
Hand protection Other Respiratory protection Thermal hazards	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary.
Hand protection Other Respiratory protection	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection.
Hand protection Other Respiratory protection Thermal hazards General hygiene	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Not available.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Not available. 9.9 ± 0.5 (Conc)
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Not available. 9.9 ± 0.5 (Conc) Not available.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold oH Melting point/freezing point nitial boinging point and boiling range Flash point Evaporation rate	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Not available. 9.9 ± 0.5 (Conc) Not available. 212 °F (100 °C)
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point Evaporation rate	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Not available. 9.9 ± 0.5 (Conc) Not available. 212 °F (> 100. °C) > 212.0 °F (> 100. °C)
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point Evaporation rate Flammability (solid, gas)	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Not available. 9.9 ± 0.5 (Conc) Not available. 212 °F (> 100.0 °C) > 212.0 °F (> 100.0 °C) Not available. Not applicable.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point Evaporation rate Flammability (solid, gas)	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Not available. 9.9 ± 0.5 (Conc) Not available. 212 °F (> 100.0 °C) > 212.0 °F (> 100.0 °C) Not available. Not applicable.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point Evaporation rate Flammability (solid, gas)	If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Red. None. No fragrance added. Relative density temperature Solubilities (water) Partition Coefficient n- octanol/water	75 °F (23.9 °C) 100 % Soluble. Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	< 10 cP
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable at normal conditions.
Possiblity of hazardous reactions	Hazardous polymerization does not occur.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	Carbon oxides.

Section 11 - Toxicological information

Information on likely routes of e	exposure
Ingestion	No adverse effects due to ingestion are expected.
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.
Skin contact	Prolonged or repeated skin contact may cause drying, cracking, or irritation.
Eye contact	Cause slight eye irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Mild eye irritation. Prolonged or repeated skin contact may cause drying, cracking, or irritation.

Information on toxicological effects.

Acute toxicity	Not expected to be h	azardous.				
Components		Level	Туре	Code	Species	Results
Alcohols, C9-11, ethoxylate	(CAS 68439-46-3)	Acute	Dermal	LD50	Rabbit	> 2 g/kg
		Acute	Oral	LD50	Rat	1378 mg/kg
Skin corrosion/irritation	Prolonged or repeate	ed contact may dry	skin and cause irr	itation.		
Serious eye damage/ eye irritation	May cause slight eye	irritation.				
Respiratory sensitization	Not classified.					
Skin sensitization	Not available.					
Germ cell mutagenicity	Not classified.					
Carcinogenicity	Not classified.					
Reproductive toxicity	Not classified.					
Specific target organ toxicity - single exposure	Not classified.					
Specific target organ toxicity - repeated exposure	Not classified.					
Aspiration hazard	Not classified.					

Section 12 - Ecological Information

Ecotoxicity		•	e which is toxic to aquatic organisms. The prod wever, this does not exclude the possibility that he environment.	
Component	(s)			
Alcohols, C9	-11, ethoxylate (CA	AS 68439-46-3)		
Aquatic				
Level	Туре	Code	Species	Test Results
Acute	Crustacea	EC50	Water flea (Daphnia magna)	2.9 - 8.5 mg/l, 48 hours
	Fish	LC50	Fathead minnow (Pimephales promelas)	6 - 12 mg/l, 96 hours
	Fish	LC50	Flathead minnow (Pimephales promelas)	0.619 - 0.796 mg/l, 96 hours
ersistence and	d degradability	The product is expected to be bi	odegradable.	
ioaccumulativ	e potential	Not known.		

Mobility in soil	Not available.				
Mobility in general The product is water soluble and may spread in water systems.					
Other adverse effects	None known.				
	Section 13 - Disposal considerations				
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.				
Local disposal regulations	Dispose of in accordance with local regulations.				
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.				
Waste from residues / unused products	Dispose in accordance with all applicable regulations.				
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.				
	Section 14 - Transport information				

General Information

This product is customer diluted for on site use only. No transportation information is anticipated or provided. The regulatory transport classification of the product without consideration to dilution strength, packaging, quantity, or modal restrictions and exceptions can not be anticipated. It is the user's responsibility to determine the appropriate packaging and modal requirements and/or limitations for the product quantity being shipped.
