

# NATIONAL CHEMICAL LABORATORIES, INC.

### SAFETY DATA SHEET

Section 1 - Identification			
Product Identifier	LVT-CLEAN RTU (1-32 to 1-64) Routine Luxury Vinyl Tile Cleaner		
Other means of identification	2620 (1-32:1-64)		
Recommended use	Detergent RTU.		
<b>Recommended restrictions</b>	For commercial and industrial use only. User prepared Ready-To-Use solution. 1:12 to 1:64 in water.		
Manufacturer / Importer / Supp	lier / Distributor Information		
Company Name	National Chemical Laboratories of PA, Inc.		
Address	401 N. 10th Street - Philadelphia, PA 19123		
Telephone	1 (215) 922-1200		
Supplier Email	info@nclonline.com		
Contact	CHEM-TEL		
Emergency Phone	1 (800) 255-3924		

### Section 2 - Hazard(s) Identification

	Classification	Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None	
Signal Word	None	
Hazard Statement	The mixture does not meet the criteria for classification.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices. Avoid contact with eyes.	
Response	Wash hands after handling.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of waste and residues in accordance with local authority rec	quirements.
Hazard(s) not otherwise classified (HNOC)	None known.	

#### Section 3 - Composition/Information on ingredients

#### Mixture

Composition Comments Components not listed are either non-hazardous or are below reportable limits.

#### **Section 4 - First-aid Measures**

Inhalation	Move to fresh air. Get medical attention if irritation persists.			
Skin contact	Wash off with water. Get medical attention if irritation develops and persists.			
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.			
Ingestion	Rinse mouth. Get medical attention if irritation develops and persists.			
Most Important symptoms or ef	fects, acute and delayed			
	Direct contact with eyes may cause temporary irritation.			
Indication of immediate medical	l attention and special treatment needed			
	Treat symptomatically.			
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.			
	Section 5 - Fire-fighting measures			
Suitable extinguishing media	RTU product will not suport combustion. Water fog. Foam. Carbon dioxide (CO2).			
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.			
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.			

### SAFETY DATA SHEET

Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.				
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.				
General fire hazards	No unusual fire or explosion hazards noted.				
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.				
	Section 6 - Accidental release measures				
Personal precautions, protective equipment and emergency procedures.	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.				
Methods and materials for containment and cleaning up	SMALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.				
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.				
	Section 7 - Handling and storage				
Precautions for safe handling	Observe good industrial hygiene practices. Avoid contact with eyes.				
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).				
	Section 8 - Exposure control/personal protection				
Occupational exposure limits	No exposure limits noted for ingredient(s).				
Biological limit values	No biological exposure limits noted for the ingredient(s).				
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne				
Individual protection measures, si	levels to an acceptable level. uch as personal protective equipment				
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.				
Skin protection					
Hand protection	Impervious gloves are recommended for prolonged use.				
Other	If use of product risk exposure to contact, wear suitable protective clothing.				
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.				
	Wear appropriate thermal protective clothing, when necessary.				
Thermal hazards					
Thermal hazards General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.				
General hygiene	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,				
General hygiene	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.				
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.				
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties				
General hygiene considerations Appearance Physical state	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  Section 9 - Physical and chemical properties  Liquid.				
General hygiene considerations Appearance Physical state Form	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  Section 9 - Physical and chemical properties  Liquid. Turbid to hazy, thin liquid.				
General hygiene considerations Appearance Physical state Form Color Odor	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  Section 9 - Physical and chemical properties  Liquid. Turbid to hazy, thin liquid. Colorless.				
General hygiene considerations Appearance Physical state Form Color	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  Section 9 - Physical and chemical properties  Liquid.  Turbid to hazy, thin liquid. Colorless. Lemon.				
General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  Section 9 - Physical and chemical properties  Liquid.  Turbid to hazy, thin liquid. Colorless. Lemon. Not available.				
General hygiene considerations Appearance Physical state Form Color Odor Odor threshold	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  Section 9 - Physical and chemical properties  Liquid.  Turbid to hazy, thin liquid.  Colorless. Lemon. Not available. 7.6 - 8.3				
General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. ### SAFETY DATA SHEET

Relative density temperature Solubilities (water) Partition Coefficient n- octanol/water	75 °F (23.9 °C) Completely Soluble. Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 20 cSt
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	No hazardous decomposition products are known.

## Section 11 - Toxicological information

Information on likely routes of e	xposure
Ingestion	Expected to be a low ingestion hazard.
Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Symptoms related to the	Direct contact with eyes may cause temporary irritation.
physical, chemical and	
toxicological characteristics	
Information on toxicological effe	ects.
Acute toxicity	Not expected to be hazardous.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/ eye irritation	Direct contact with eyes may cause temporary irritation.
Respiratory sensitization	This product is not expected to cause respiratory sensitization.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity -	Not classified.
single exposure	
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
	Section 12 - Ecological Information
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or
	frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine
	disruption, global warming potential) are expected from this component.
	Section 13 - Disposal considerations
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.
	mate to act should be assigned by the user based on the application for which the product was used.

### SAFETY DATA SHEET

Waste from residues / unused	Dispose in accordance with all applicable regulations.
products	
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

#### Section 14 - Transport information

 DOT
 Not regulated as dangerous goods.

 IATA
 Not regulated as dangerous goods.

 IMDG
 Not regulated as dangerous goods.

 Transportation in bulk
 This substance/mixture is not intended to be transported in bulk.

 according to Annex II of
 MARPOL 73/78 and IBC Code

### Section 15 - Regulatory Information

		Section	15 - Reg	ulatory Information	
US federal regulations	This product is 1910.1200.	not known to l	be a "Hazardo	ous Chemical" as defined by the OSHA Hazard Co	nmunication Standard, 29 CFR
	All components	are on the U.S	S. EPA TSCA I	nventory List.	
TSCA Section 12(b) Ex	port Notification (40 CFR	707, Subpt. D)	)	Not regulated.	
US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)		Not listed.			
CERCLA Hazardous Su	bstance List (40 CFR 302.	.4		Not listed.
