ENVIRONMENTALLY RESPONSIBLE

This seal is your assurance that designated NCL Earth Sense® products are formulated to promote human health and worker safety, and protect our environment.

## High Gloss Results or Environmentally Responsible?

### *Now you don't have to choose!*

The wait for the ideal “green” floor care program is over. With the sanitary maintenance industry becoming more focused on making products that are environmentally responsible, there is one thing that can't be compromised ... product performance! Green products can't just be “green”; they need to work comparative to traditional cleaning and maintenance products.

### The EARTH SENSE® Floor Care System

Utilizing the latest polymer, surfactant and emulsification technologies, NCL proudly offers the EARTH SENSE® Floor Care System for all of your floor maintenance needs. As a result of months of painstaking research and formula development, ASPIRE™ and GREEN IMPACT™ provide the perfect combination of exceptional gloss, wear and ease of application with a positive ecologic profile. These products are certified by Green Seal, Inc. under the GS-40 Environmental Standard for Floor Care Products. Produced without ingredients that can be harmful to our eco-system (such as heavy metals or nonylphenol surfactants) and designed to promote a higher level of worker safety. Produced to maximize your labor costs and offer your facility a true environmental alternative to conventional floor care systems.

## The future of floor care. Produced with the future in mind.

### The EARTH SENSE® Floor Care System Advantages:

#### **ASPIRE™ Sealer / Finish**

- Environmentally Responsible, Low Odor Formula
- UL® Classified For Slip Resistance
- Free of Heavy Metals (such as zinc)
- Free of Glycol Ethers
- Free of Harsh Solvents
- Contains Zero LVP Volatile Organic Compounds (VOC's)
- Contains No Skin Sensitizers
- Free of Carcinogens, Mutagens or Reproductive Toxins
- Free of Harmful Preservatives
- Free of Nonylphenol Ethoxylate Surfactants

#### **GREEN IMPACT™ Speed Stripper**

- Environmentally Responsible, Low Odor Formula
- Free of Carcinogens, Mutagens or Reproductive Toxins
- Contains No Skin Sensitizers
- Free of Glycol Ethers
- Free of Nonylphenol Ethoxylate Surfactants
- Free of Caustics
- Free of Harsh Solvents
- Free of Phosphates

Products with this symbol meet Green Seal's environmental standard for industrial and institutional floor-care products based on its reduced human and aquatic toxicity and reduced smog production potential.

Product No.: 0555

## FLOOR FINISH

# Aspire™

### ENVIRONMENTALLY RESPONSIBLE METAL-FREE FLOOR SEALER / FINISH

- Technologically advanced formula provides exceptional gloss and performance rivaling traditional zinc containing finishes.
- Contains no heavy metals that can be harmful to the environment and aquatic life.
- Contains no environmentally harmful surfactants, no glycol ether based solvents, no ethanolamine, and no environmentally toxic preservatives.
- Responds to burnishing with 300 - 2000 RPM equipment.
- Sealer / Finish combination simplifies floor care maintenance and controls product costs.

Product No.: 1053

## STRIPPER

# Green Impact™

### ENVIRONMENTALLY RESPONSIBLE SPEED STRIPPER

- Non-toxic, non-flammable, non-caustic, environmentally responsible formula.
- No phosphates, no butyl (2-Butoxy Ethanol), no NPE or APE surfactants, no free alkali, no added fragrances.
- Powerful, yet low odor formulation is excellent for use in health care facilities, nursing homes, any area where objectional odors present a problem.
- Super-concentrated formula for economical in-use-dilution costs.

Product No.: 4016

## CLEANER

# pH Neutral

### ENVIRONMENTALLY RESPONSIBLE ALL PURPOSE CLEANER

- Exceptional cleaning performance in an environmentally responsible, non-toxic, readily biodegradable formulation.
- No phosphates, no solvents, no nonylphenol ethoxylate surfactants, no silicates, no chelating agents, no caustics, no VOC's, no added dye, no added fragrance.
- Surfactants are made from renewable resources to preserve our natural resources.
- Removes greasy soils from all surfaces / Increases cleaning efficiency.
- High dilution (1:256) for exceptional economy.

ENVIRONMENTALLY RESPONSIBLE

## What is "Green"?

There are many answers, but one thing is for sure, the definition of "Green" is constantly changing. As new technologies and raw materials become available, the definition of green evolves. As a manufacturer, NCL is committed to "continuous improvement", constantly evaluating new, innovative raw materials and manufacturing processes. NCL implements changes as they become available and are proven to perform, staying on the cutting edge of "green" science. Frequently this puts us ahead of organizations that prepare environmental standards and authorize "green" products. NCL supports agencies such as Green Seal, Inc., the EPA Design for the Environment Program, the US Green Building Council, and Green Hotels Association whose goals are to minimize the environmental impact of cleaning products and improve human health.

Earth Sense® represents the NCL commitment and dedication to environmentally responsible cleaning products that minimize environmental impact, provide a more positive health profile, improve air and water quality, and provide cleaning efficacy at reasonable cost. Cleaning products must work effectively and need to make sense, for the earth, for current and future inhabitants. That's Earth Sense.
