High Performance, Industrial Quality Wipe

The quality of the wipe makes a big difference in the cleaning performance. NCLwipes™ Disinfectant Wipes are constructed using the highest quality, superior performance materials available. Compared to the quality found in many retail brand wipes, the NCLwipes™ Disinfectant Wipes deliver superior cleaning performance. The unique "diamond" pattern integrated into the wipe creates an incredibly strong weave that resists stretching, tearing and linting.

- Large 7" by 8" wipe is larger than traditional retail offerings.
- Superior cleaning and removal of spills & soils from surface.
- Unique wipe material releases disinfectant more uniformly and consistently while covering a larger area.

#4542
Lemon Fresh
6 -125 ct. / case.

#4541
Waterfall Fresh
6 -125 ct. / case.
